

2022 IFMBE Election: Candidate's Profile

Piergiorgio
Salerno

Position nominated
for:
HTAD Board member

Affiliated Society:
AIC

I hold a Bachelor's Degree in Biomedical Engineering from the University of Naples "Federico II" and a Master's Degree from the University of Florence.
As a master's degree project I discussed the thesis on the use of sentiment analysis as an HTA tool to evaluate and review medical devices, which I also presented in Rome in 2019 at the Third International Congress on Clinical Engineering.
This project allowed me to pursue a passion for machine learning and further explore the field of medical devices, especially electromedical devices.
Today I work at the Hospital of Varese "Asst dei Sette Laghi" at the office of planning, management control and operations management.
